

Skills

- SQL (SQL Server, MySQL, PostgreSQL)
 - Python (Pandas, NumPy, Matplotlib, Seaborn)
 - Tableau
- BigQuery
 - Excel
 - Microsoft Power BI

Projects

- GYM MEMBERSHIP ANALYTICS DASHBOARD – Tableau • SQL**

 - Analyzed 10M+ gym membership records to uncover trends across age groups, fitness levels, goals, preferences, and health limitations.
 - Cleaned and preprocessed large-scale data using SQL, handling missing values and standardizing categories for consistency.
 - Built an interactive Tableau dashboard with KPI cards, custom design, and filters for dynamic member segmentation.
 - Delivered actionable insights highlighting dominant fitness levels, adult engagement trends, and the need for personalized training programs.
- E-COMMERCE SALES PERFORMANCE DASHBOARD | SQL • Tableau**

 - Built a complete business intelligence dashboard using SQL and Tableau by transforming raw e-commerce data into actionable insights.
 - Performed data cleaning, joins, aggregations, and metric calculations to create a structured analytical dataset.
 - Calculated business KPIs including Total Revenue, Net Profit, Orders, Users, Refund Rate, and Cost of Goods Sold (COGS).
 - Developed interactive visualizations to analyze monthly financial performance, product profitability, refund trends, and revenue by category.
 - Created a single dashboard that enables stakeholders to monitor overall sales performance and identify key growth opportunities.
- NETFLIX CONTENT INSIGHTS DASHBOARD | PowerBI • DAX**

 - Developed an interactive Power BI dashboard using the Netflix dataset to analyze over 6,000+ titles across Movies and TV Shows.
 - Performed data cleaning and transformation in Power Query, including handling missing values and standardizing date formats.
 - Created DAX measures to calculate KPIs such as total movies, total TV shows, unique directors, and titles added per year.
 - Visualized global content trends by country, release year, and rating category, revealing that the United States and India dominate Netflix’s content library.
 - Designed a Netflix-themed (red-black) dashboard layout with dynamic filters for content type, enhancing interactivity and user experience.

Education

BACHELOR OF ARTS IN POLITICAL SCIENCE – Delhi University – School of open Learning	July 2024
Senior Secondary (12th Grade) - GBSSS Jharoda	2021
Secondary (10th Grade) - GBSSS Jharoda	2019

Certifications

- Data Analytics**

 - Power BI — Micro Course
 - Learning Data Analytics — Foundations (LinkedIn Learning)
 - Learning Data Analytics — Part 2 (LinkedIn Learning)
 - Career Skills in Data Analytics (LinkedIn Learning)
 - Data Science & Analytics
- Artificial Intelligence**

 - AI for Beginners
- Professional Skills**

 - Presenting Data
 - Effective Presentations
 - Communication Skills
